Outline

- Discussed

  - Approaches to handle errors (what-if and exceptions)

  - Concept of Exception

  - The Java throwable class hierarchy

    - system errors, runtime exceptions, checked errors, unchecked errors

  - Methods of declaring, throwing, catching, and rethrowing exception

- The finally clause

The finally Clause

- The try…catch… can have a finally clause

```
try {

  statements;

}

catch(TheException ex) {

  handling ex;

}

finally {

  finalStatements;

}
```

Questions?

- When is the finally-block being executed?

- Can we answer this via experiments, and how?
