# CISC 3120
C29: The Spring Framework: Testing for the Web

Hui Chen

Department of Computer & Information Science

CUNY Brooklyn College

Web Application Architecture

Unit Test: JUnit

- Example in the HelloSpring in the "sampleprograms" repository under the "web" folder

- Further reading

  - Spring Framework Testsing

Integration Test: WebDriver

- Selenium is an implementation of the WebDriver standard

  - Directly test on Web browsers by introspecting and controlling of user agents (the Web browsers)

- Example in the WebAppTest in the "sampleprograms" repository under the "web" folder
